There is a sign error in Equation 15 of the Supporting Material. The correct equation is:

$$\Delta w_i = \begin{cases} A \cdot \exp(\frac{t_{pre} - t_{post}}{\tau}) & t_{pre} - t_{post} < 0 \\ \\ -A \cdot \exp(\frac{t_{post} - t_{pre}}{\tau}) & t_{pre} - t_{post} > 0 \end{cases} \tag{15}$$
